Greg, all 4 PDFs have been received and work. I had the same problem with the narrative report file but downloaded it from the link below (will let EPA-HQ know about the issue). Thank you. Calvin

Calvin, I have attempted to reupload the 4 PDFs and have submitted. However, when I redownloaded the documents to check that it worked the narrative report can't seem to upload correctly and I've tried a few times. If you have the same problem you can download all 4 documents from our sharedrive folder below. If we can figure out how to upload to GSDT I'm happy to continue to try. We had a lot of difficulty with GSDT bugs/errors during the initial permit application, spending several days trying to troubleshoot with EPA-HQ.

We hope that in the meantime you can move forward with your review using the PDFs available at the link below if needed.

Thank you, Greg

Greg,

I was able to open the response letter but not the SJR.010722.zip file in the "InfoReq-01-09-2022—2107" folder. I have tried redownloading the zip file a few times but keep getting the message below. Can you please try uploading the files contained in the zip file as pdfs? Thanks. Calvin

Gregory,

Please submit the items to EPA via the GSDT. We couldn't upload a copy of the letter to the GSDT at the moment due to a glitch of the system but will do so when the issue is fixed.

The 'Kern County' application on the list is for another facility.

Best,
Calvin

Calvin and David, thank you – we will proceed to complete the items listed in your letter. When these items are complete would you like us to submit to you via email and/or the GSDT system?

We're also curious if the 'Kern County' application on this list is for San Joaquin Renewables, or another facility? Best,
Greg
